

FireFacts at Washington Elementary

Caldwell Idaho agents Gary Weaver and Stewart Hyndman recently teamed-up to put on a successful FireFacts event. This is their story:

“Our event was very rewarding. We had over 500 kids grades K-5th. We handed out FireFacts discs, puzzles, games and a fire safety escape plan map for every child to take home and practice with their parents. Tim Nelson, from the state office was key in helping us with the Farmers CVC Unit. The Firefighters were great. They loved the event and they’ve asked us to help them in October for Fire Safety month. The only thing I would do different next time is to break the kids into smaller groups.

Knowing we may have helped save lives sure is a great feeling! I would make this a monthly event if I could.”
