

There was more than the usual buzz at the Milestones Academy in Kansas City Missouri on Friday April 24th . Everyone was excited about "Fire Safety Day" at the academy. Milestones Academy is a certified private school that serves children ages five to 21. The Academy actively engages in implementing Positive Behavior Support (PBS) as an approach to support children and adults with disabilities in the community. Henry Quinde, a Kansas City MO reserve agent produced and sponsored the event. It was perfect timing for the event as the children had been learning about fire safety at the school throughout the month of April. Henry handed out prizes and trinkets to the children. Most importantly, each child and each teacher was given a Fire Facts CD to continue the education of Fire Safety. Then it was off to the parking lot where the fire fighters and fire truck greeted the assembly. The star of the show was definitely the fire truck and the hands on tour and the opportunity to work the fire hose. Henry had the honor to presented the school with the \$100 donation. " This was a great opportunity to help children with disabilities and their families create a fire safety plan. This definitely is one of the best ways to reach out and get involved with your community!"
